

SAVEETHA SCHOOL OF ENGINEERING
CSA15- CLOUD COMPUTING AND BIG DATA ANALYTICS
LIST OF EXPERIMENT 1

1. Create a simple cloud software application and provide it as a service using any Cloud Service Provider to demonstrate Software as a Service (SaaS).

SOL:

AIM:

To develop a simple cloud-based software application using **Zoho Creator** and deploy it as a **Software as a Service (SaaS)** application, enabling users to access and manage data through a web browser over the internet.

PROCEDURE:

- Sign in to the Zoho Creator platform using a Zoho account.
- Create a new application by selecting Blank Application or using a suitable template.
- Design the required data entry forms by adding fields such as text, number, date, and email.
- Create reports to display, search, and manage the stored records.
- Add workflows or automation rules if required (e.g., email notifications or validation).
- Configure user roles and permissions to control access to the application.
- Publish and deploy the application to the Zoho cloud platform.
- Access the application through its web URL from different devices to verify cloud accessibility.
- Test the application's functionality by adding, editing, viewing, and deleting records.

SNAPSHOTS:

The screenshot displays a web browser window with the URL `creatorapp.zoho.in/samikshagopinath/movie-ticket-management#Form:...`. The application interface is titled 'Movie Ticket Management' and features a sidebar menu with options: Dashboard, Bookings (selected), All Bookings, Payment Methods, Customers, and Movies. The main content area is titled 'Bookings' and contains a form with the following fields:

- Customer: Text input field
- Movie: Dropdown menu with '-Select-'
- Theatre Name: Text input field
- Show Date: Text input field with placeholder 'dd-MMM-yyyy'
- Show Time: Text input field with placeholder 'HH:mm:ss'
- Number of Tickets: Text input field with placeholder '#####'
- Seat Numbers: Text input field
- Total Amount: Text input field with placeholder '#####.##'
- Payment Method: Dropdown menu with '-Select-'
- Payment Status: Radio buttons for 'Paid' and 'Pending'

The bottom of the browser window shows the Windows taskbar with the search bar, task view button, and various application icons. The system clock indicates the time is 21:52:58 on 05-03-2026, with 9% battery and English (US) language settings.

Show Summary

RESULT:

A simple cloud-based application was successfully created and deployed using **Zoho Creator**. The application was accessible online through a web browser, demonstrating the **Software as a Service (SaaS)** model by allowing users to use the software without installing it locally.
